### **2 Read about the house rules in Connor's house and then choose the correct alternative.**

#### **House Rules**

My parents made some house rules. They said that I was bigger now and that we should help more in the house. They also said that they didn't always want to tell me to do things like getting up on time or other little things. They made rules so they don't have to ask me all the time. At first, I didn't like the rules, but after a while I saw that they were useful because now my parents don't shout at me all the time. Also, I only get pocket money when I follow the rules!

In the mornings, I have to get up when my alarm goes. I have to shower and make my bed before I go to school. I also have to eat a good breakfast. My mum makes my breakfast for me. In the afternoons, after school, I have to walk the dog for half an hour. But on Thursdays my mum does it because I have football practice. I also have to do my homework. When my homework is finished, I can watch TV for an hour. Or I can go on social media and talk with my friends. At 10.00 p.m. I must turn off my phone and give it to my father. I must be asleep by 10.30 p.m.

At weekends the rules are different. Every second weekend I have to give my room a good clean. Otherwise, there are no rules at weekends!

Example: Connor's parents made house rules because they **wanted / didn't want** to tell Connor to do things all the time.

- 1 Connor's parents shout at Connor **more / less** now.
- 2 In the morning, Connor **has a shower, makes his breakfast and tidies his room / has a shower, makes his bed and eats his breakfast.**
- 3 Connor takes the dog for a walk on **Thursdays / four days** in the week.
- 4 Connor **has to / doesn't have to** finish his homework before he watches TV.
- 5 Connor cleans his room very well **every / every second** weekend.
